

## ctx56 NETOLINE

### Cleans the waterline

- Gel detergent specially formulated to remove oil, dirt, and limescale from pool edges, walls and surrounds as required.
- Due to gel consistency it sticks to the walls, preventing splash-back.

### PROPERTIES

Appearance	Dense liquid gelatinous consistency
Colour	Rosy
pH in supply	0
Density	1,05 - 1,09 g/cm <sup>3</sup>

### CHARACTERISTICS

Acid detergent specially formulated to eliminate grease circles, filth and calcareous deposits from the swimming-pool edges, walls and required surrounding areas.

It completely dissolves calcareous deposits and metallic oxide stains. It does not give off either damaging smoke nor steam. It is easily applicable on vertical surfaces with a paintbrush or a roller. Unlike the cleaning products commonly used, this one allows to increase the product performance. Due to its consistency, it sticks on the walls and does not splash the users.

### INSTRUCTIONS FOR USE

Apply the product without diluting it in a cloth or a sponge and rub the areas to clean. In case there is persistent filth in the areas near the waterfront, it is advisable to make the water fall down in order to get a greater effectiveness.

### DOSAGE

The approximate consumption is about 15 litres for every 100 m<sup>3</sup> of the swimming-pool water, depending on the degree of dirtiness.

These doses are the ones suggested and can be modified according to the own characteristics of every swimming pool, climate, etc.
