OV 3505

VORTEX™

1 **PATENTED CYCLONE SUCTION**

Zodiac® engineers have created the first **Cyclonic suction** pool cleaners: the flow is keeping debris in suspension inside the filter and allows a **longer lasting suction** while limiting the clogging.

2 **EASE OF ACCESS AND FILTER CLEANING**

The filter can be accessed **from the top of the robot** and is easy to clean, making things simpler for you and meaning **you don't come into contact with the debris**.

3 **LARGE SUCTION CAPACITY**

The OV 3505 robotic cleaner guarantees perfect large-scale cleaning. **With its extra wide suction inlet** and its high-capacity 5 L filter, it can suck up and store all types of debris.
