SWIMMING POOLS

Alpha 63 iQ Bio

ALPHA IQ™ PRO

1 PERSONALISED CLEANING

With its **Sensor Nav System™**, the Alpha 63 iQ Bio robot cleaner identifies the configuration of your pool to optimise its movements and cleaning time.

2 EFFECTIVE SUCTION

Its patented **cyclone suction** is extremely powerful and long-lasting. Thanks to its extra-large suction capacity and an adapted filtration (400µ), the cleaner optimally collects debris while preventing from early clogging.

3 EASY-TO-USE

Thanks to its patented **Lift System**, Alpha 63 iQ Bio is lighter when removing it from the water. Its simple access to its filter and the visibility offered by its transparent window make it easy-to-use in all circumstances.

4 INTUITIVE CONTROLS

Monitor cleaning progress at any time through the intuitive interface of the **iAquaLink™** application. Alpha 63 iQ Bio is upgradeable thanks to possible optimisations and automatic remote updates.
