

FILTER CLEANER

Compound specially formulated for the cleaning of cartridge filters used in spas and hot tubs.

Cartridge filters accumulate debris such as cosmetic residues and skin, which can eventually create an oily film and clog the filter.

Cleaning should be carried out regularly.

PROPERTIES

Appearance	Liquid
Colour	Colourless
Density	0,90-0,98 g/cm ³
pH	11-12

DOSAGE AND INSTRUCTIONS FOR USE

1. Remove the filter cartridge.
2. Place the cartridge in a plastic bucket and rinse it with clean water to remove visible dirt.
3. Add 100 ml of product and enough clean water to fully cover the cartridge.
4. Leave the filter in the solution for at least 12 hours.
5. Take out the cartridge and rinse it thoroughly with clean water.
6. Your cartridge filter is now ready for use.
