

## VERSATILE SALT TREATMENT

**iAquaLink®**  
COMPATIBLE

# eXPERT

## 1 EASE OF USE

With its large touchscreen, eXPERT is **fast to set up and start up**. Your pool's status can be checked at-a-glance on the **user-friendly display**.

## 2 MAXIMUM VERSATILITY

Available in a **wide range of options to treat pool volumes** up to 180 m<sup>3</sup>, eXPERT guarantees **long-lasting water treatment** thanks to a long-lasting cell.

## 3 AUTONOMOUS WATER QUALITY MANAGEMENT

eXPERT provides **full water treatment features** with **water balance management** (pH regulation) and **automatic regulation of chlorination** (ORP regulation)\*.

\*Depending on the model.

## CHARACTERISTICS

### Large intuitive display

Easy pool control with the large touchscreen.

### Minimal maintenance

Self-cleaning electrodes using polarity reversal.

**STOP**

### Safe system

Automatic stop if there is no flow in the cell.

UNCONDITIONAL  
WARRANTY  
UNCONDITIONAL

### Unconditional warranty

On the power pack and the cell, regardless on the how the damage is caused.

## OPTIONAL ACCESSORY

### iQBridge RS

Plug & play WiFi gateway enabling anytime and anywhere control through the iAquaLink®+ app.

## WHICH TYPE OF POOLS?

### 1 ALL POOL TYPES

### 2 POOLS UP TO 180M<sup>3</sup> (TEMPERATE CLIMATE, FILTRATION 8 H/DAY)

## eXPERT - 3 SOLUTIONS

### 1. Chlorinator only

Automatically disinfects your pool.

### 2. Chlorinator + pH regulation

In addition to automatically disinfecting the pool, this solution automatically measures and regulates the pH level of the water. If necessary, corrective product is injected.

### 3. Chlorinator + pH regulation and ORP

This solution automatically measures and regulates the water's pH and chlorination (ORP method) for a complete water treatment.

## TECHNICAL INFORMATION

MODELS	eXPERT				
	7	12	21	30	40
Chlorine production (g/h)					
Volume of water treated (temperate climate, filtration 8 h/day)	30	50	90	140	180
User interface	Backlit touchscreen + LCD				
Operating mode(s)	Normal, Cover Mode, Boost Mode (Adjustable Cover Mode from 0 to 90%, default 10%)				
Connectivity / App control	Controllable via iAquaLink®+ app using optional iQBridge RS WiFi gateway*.				
pH regulation	Yes - eXPERT pH models pH dosing pump: 1.5 L/h pH sensor: high quality glass				
pH/ORP regulation	Yes - eXPERT pH/ORP models pH dosing pump: 1.5 L/h pH sensor: high quality glass ORP sensor: high quality glass and special gold tip for salt water				
Reverse polarity	Yes (adjustable)				
Recommended minimum salt levels	4 g/L				
Safety	Water temperature: Value displayed on the screen and indicator light if the water is too cold				
	Salinity: Value displayed on the screen and indicator light if the level is too low or too high				
	Flow in the cell: mechanical flow switch that stops production if there is not enough water				
	pH and ORP value(s) (depending on the model): indicator light(s) if the levels are outside the normal range				
Supply voltage	230 Vac - 50/60 Hz				

Salt chlorinators are an **automatic and efficient disinfection solution**.  
They are **easy to use**, provide complete water treatment and **reduce maintenance**.

**2 YEARS**  
UNCONDITIONAL  
WARRANTY

\* All eXPERT manufactured from end January 2023.
