

## THE ECO-SILENT CHOICE

# Z550iQ

### 1 FULL INVERTER TECHNOLOGY: SILENT AND ECONOMICAL

Operating speed is adjusted based on the required power and selected mode:

- **Boost:** maximum power for fast heat-up
- **Smart:** automatic power adjustment depending on temperature
- **Ecosilence:** further energy savings and lowest noise level

**ECO  
SILENCE**

### 2 FITS EASILY INTO SMALL PLACES

The Z550iQ is **discreet** and can be installed next to any pool. Thanks to its smaller footprint, requiring **half the space** of standard heat pumps and to its vertical air flow, it can be **placed in the smallest spaces**.

### 3 EMBEDDED CONNECTIVITY

With your smartphone, you can remotely **set and consult Z550iQ heat pump's different modes of operation**. Once connected, Z550iQ benefits from continuous improvements thanks to remote automatic updates.

# THE ECO-SILENT CHOICE

## WHY CHOOSE THE Z550iQ HEAT PUMP?

Z550iQ offers truly intelligent heating that automatically adapts to the user's needs.

An innovation from Zodiac®.

### FULL INVERTER TECHNOLOGY

#### THREE OPERATING MODES

#### BOOST

■ Turbo boost mode.

**Ideal at the beginning of the season, when the water is still cold.**

This mode uses 100% of the heat pump's capability to quickly heat the water.

#### ECO SILENCE

■ Silent heating with the lowest cost.

**Ideal for maintaining the temperature in all seasons.**

This mode uses 50 to 75% of the pump's capabilities, guaranteeing silence, energy savings and performance.

#### SMART

■ Intelligent, worry-free heating.

**The ideal compromise all year round.**

This mode regulates your pool's temperature automatically and independently. The heat pump adjusts its strength from 50 to 100% depending on requirements, while limiting energy consumption.

Example of use:

## FITS EASILY INTO SMALL SPACES

The Z550iQ is discreet and can be installed next to any pool:

- Thanks to its smaller footprint, requiring half the space of standard heat pumps.
- Thanks to its vertical exhaust, it can be placed in the smallest spaces.

Space requirement, including clearance:  
**5 m<sup>2</sup>**

Traditional heat pump with horizontal exhaust  
> 10 m<sup>2</sup>!

## EMBEDDED CONNECTIVITY<sup>(2)</sup>

With your smartphone, you can remotely set and consult Z550iQ heat pump's different modes of operation. Once connected, Z550iQ benefits from continuous improvements thanks to remote automatic updates.

(1)

## SPECIFICATIONS

**Ti<sup>22</sup>**  
TITANIUM  
INSIDE

### Long-lasting

Patented titanium heat exchanger.

### Reversible

Suitable for use in all seasons, from intensive defrosting to cooling the pool.

### Embedded connectivity

With your smartphone, you can remotely set and consult Z550iQ heat pump's different modes of operation.

## FOR WHICH TYPE OF POOLS?

**1** FOR IN-GROUND, SEMI-IN-GROUND AND ABOVE-GROUND POOLS

**2** INTERIOR AND EXTERIOR POOLS UP TO 110M<sup>3</sup>

**3** SUITABLE FOR ALL TYPES OF WATER TREATMENT

## TECHNICAL INFORMATION

MODELS	Z550iQ MD4	Z550iQ MD5	Z550iQ TD5	Z550iQ MD8	Z550iQ TD8
Performance: Air 28°C / Water 28°C / Humidity 80%					
Heating capacity (kW) Max Speed	12.5 - 7.9	15 - 7.6	15.5 - 7.1	20 - 10.8	20 - 11.2
Power consumed (kW)	2 - 1.05	2.5 - 1.05	2.4 - 0.65	3.6 - 1.55	3.5 - 1.55
Average COP	6.1 - 7.6	5.9 - 7.4	6.6 - 10.9	5.5 - 7	5.8 - 7.7
Performance: Air 15°C / Water 26°C / Humidity 70%					
Heating capacity (kW) Max Speed	9.5 - 5.5	11.5 - 5.8		15 - 7.8	15 - 8.2
Power consumed (kW)	1.9 - 0.95	2.5 - 1.1	2.4 - 0.8	3.7 - 1.65	3.1 - 1.4
Average COP	4.9 - 5.7	4.6 - 5.4	4.9 - 7.2	4.1 - 4.9	4.9 - 6
Technical specifications

- **The COP or coefficient of performance** is the ratio between the power supplied to the water in the pool and the electricity consumption of the heat pump. As an example, a COP of 5 means that for 1 kWh consumed at the electricity meter, the heat supplies 5 times more energy to the water in the pool, or 5 kWh.

So **the higher the COP, the more efficient and economical the system.**

**Important:** the coefficient of performance directly depends on temperature (of air and water) and humidity.

Affordable and **easy to install**, Zodiac® heat pumps are the ideal solution for heating your pool and using it more often throughout the year, while also saving energy.

**Around 80% of the energy used to heat your pool comes from the air!**

**3 YEARS**  
WARRANTY
