### DOSAGE AND INSTRUCTIONS FOR USE

Put product directly onto a sponge or cloth, rubbing the surface where cleaning is required. It is advisable to lower the water level to achieve greater product efficiency, in those cases with persistent dirt on surfaces close to water level. After cleaning, it is recommended to rinse the surfaces with plenty of water, in order to remove the remains of the product.

In those places where there are calcareous deposits, it will be necessary to use ctx 51 WallCleaner Plus (0051).

These doses are the ones suggested and can be modified according to the own characteristics of every swimming pool, climate, etc.
