

Reliance EMIX-L LED Elevated Runway Edge Light

L-861, L-861E, & L861SE Medium Intensity, TP312 Threshold/
End, & MOS139 Medium & Low Intensity

Spare Parts List

SP-3080, Rev. 1.1.1, 2026-Jan-13

**ADB
SAFEGATE**

A.0 Disclaimer / Standard Warranty

CE certification

The equipment listed as CE certified means that the product complies with the essential requirements concerning safety and hygiene. The European directives that have been taken into consideration in the design are available on written request to ADB SAFEGATE.

ETL certification

The equipment listed as ETL certified means that the product complies with the essential requirements concerning safety and C22.2 No.180:13 (R2018) regulations. The CSA directives that have been taken into consideration in the design are available on written request to ADB SAFEGATE.

All Products Guarantee

ADB SAFEGATE will correct by repair or replacement per the applicable guarantee below, at its option, equipment or parts which fail because of mechanical, electrical or physical defects, provided that the goods have been properly handled and stored prior to installation, properly installed and properly operated after installation, and provided further that Buyer gives ADB SAFEGATE written notice of such defects after delivery of the goods to Buyer. Refer to the Safety section for more information on Material Handling Precautions and Storage precautions that must be followed.

ADB SAFEGATE reserves the right to examine goods upon which a claim is made. Said goods must be presented in the same condition as when the defect therein was discovered. ADB SAFEGATE further reserves the right to require the return of such goods to establish any claim.

ADB SAFEGATE's obligation under this guarantee is limited to making repair or replacement within a reasonable time after receipt of such written notice and does not include any other costs such as the cost of removal of defective part, installation of repaired product, labor or consequential damages of any kind, the exclusive remedy being to require such new parts to be furnished.

ADB SAFEGATE's liability under no circumstances will exceed the contract price of goods claimed to be defective. Any returns under this guarantee are to be on a transportation charges prepaid basis. For products not manufactured by, but sold by ADB SAFEGATE, warranty is limited to that extended by the original manufacturer. This is ADB SAFEGATE's sole guarantee and warranty with respect to the goods; there are no express warranties or warranties of fitness for any particular purpose or any implied warranties of fitness for any particular purpose or any implied warranties other than those made expressly herein. All such warranties being expressly disclaimed.

Standard Products Guarantee

Products manufactured by ADB SAFEGATE are guaranteed against mechanical, electrical, and physical defects (excluding lamps) which may occur during proper and normal use for a period of two years from the date of ex-works delivery, and are guaranteed to be merchantable and fit for the ordinary purposes for which such products are made.

Note

See your applicable sales agreement for a complete warranty description.

Replaced or repaired equipment under warranty falls into the warranty of the original delivery. No new warranty period is started for these replaced or repaired products.

FAA Certified products manufactured by ADB SAFEGATE

ADB SAFEGATE L858 Airfield Guidance Signs are warranted against mechanical and physical defects in design or manufacture for a period of 2 years from date of installation, per FAA AC 150/5345-44 (applicable edition).

ADB SAFEGATE LED products (with the exception of obstruction lighting) are warranted against electrical defects in design or manufacture of the LED or LED specific circuitry for a period of 4 years from date of installation, per FAA EB67 (applicable edition). These FAA certified constant current (series) powered LED products must be installed, interfaced and powered with and through products certified under the FAA Airfield Lighting Equipment Program (ALECP) to be included in this 4 (four) year warranty. This includes, but is not limited to, interface with products such as Base Cans, Isolation Transformers, Connectors, Wiring, and Constant Current Regulators.

Note

See your sales order contract for a complete warranty description.

Replaced or repaired equipment under warranty falls into the warranty of the original delivery. No new warranty period is started for these replaced or repaired products.

Liability

WARNING

Use of the equipment in ways other than described in the catalog leaflet and the manual may result in personal injury, death, or property and equipment damage. Use this equipment only as described in the manual.

ADB SAFEGATE cannot be held responsible for injuries or damages resulting from non-standard, unintended uses of its equipment. The equipment is designed and intended only for the purpose described in the manual. Uses not described in the manual are considered unintended uses and may result in serious personal injury, death or property damage.

Unintended uses, includes the following actions:

- Making changes to equipment that have not been recommended or described in this manual or using parts that are not genuine ADB SAFEGATE replacement parts or accessories.
- Failing to make sure that auxiliary equipment complies with approval agency requirements, local codes, and all applicable safety standards if not in contradiction with the general rules.
- Using materials or auxiliary equipment that are inappropriate or incompatible with your ADB SAFEGATE equipment.
- Allowing unskilled personnel to perform any task on or with the equipment.

Copyright Statement

1.0 Safety

Introduction to Safety

This section contains general safety instructions for installing and using ADB SAFEGATE equipment. Some safety instructions may not apply to the equipment in this manual. Task- and equipment-specific warnings are included in other sections of this manual where appropriate.

1.1 Safety Messages

HAZARD Icons used in this manual

For all HAZARD symbols in use, see the Safety section. All symbols must comply with ISO and ANSI standards.

Carefully read and observe all safety instructions in this manual, which alert you to safety hazards and conditions that may result in personal injury, death or property and equipment damage and are accompanied by the symbols shown below.

	<p>WARNING Failure to observe a warning may result in personal injury, death or equipment damage.</p>
	<p>DANGER – Risk of electrical shock or ARC FLASH Disconnect equipment from line voltage. Failure to observe this warning may result in personal injury, death, or equipment damage. ARC Flash may cause blindness, severe burns or death.</p>
	<p>WARNING – Wear personal protective equipment Failure to observe may result in serious injury.</p>
	<p>WARNING – Do not touch Failure to observe this warning may result in personal injury, death, or equipment damage.</p>
	<p>CAUTION Failure to observe a caution may result in equipment damage.</p>
	<p>ELECTROSTATIC SENSITIVE DEVICES This equipment may contain electrostatic devices.</p>

Qualified Personnel

	<p>Important Information The term qualified personnel is defined here as individuals who thoroughly understand the equipment and its safe operation, maintenance and repair. Qualified personnel are physically capable of performing the required tasks, familiar with all relevant safety rules and regulations and have been trained to safely install, operate, maintain and repair the equipment. It is the responsibility of the company operating this equipment to ensure that its personnel meet these requirements. Always use required personal protective equipment (PPE) and follow safe electrical work practice.</p>
---	--

1.1.1 Introduction to Safety

CAUTION

Unsafe Equipment Use

This equipment may contain electrostatic devices, hazardous voltages and sharp edges on components

- Read installation instructions in their entirety before starting installation.
- Become familiar with the general safety instructions in this section of the manual before installing, operating, maintaining or repairing this equipment.
- Read and carefully follow the instructions throughout this manual for performing specific tasks and working with specific equipment.
- Make this manual available to personnel installing, operating, maintaining or repairing this equipment.
- Follow all applicable safety procedures required by your company, industry standards and government or other regulatory agencies.
- Install all electrical connections to local code.
- Use only electrical wire of sufficient gauge and insulation to handle the rated current demand. All wiring must meet local codes.
- Route electrical wiring along a protected path. Make sure they will not be damaged by moving equipment.
- Protect components from damage, wear, and harsh environment conditions.
- Allow ample room for maintenance, panel accessibility, and cover removal.
- Protect equipment with safety devices as specified by applicable safety regulations
- If safety devices must be removed for installation, install them immediately after the work is completed and check them for proper functioning prior to returning power to the circuit.

Failure to follow these instructions can result in serious injury, death or equipment damage

Additional Reference Materials

Important Information

- IEC – International Standards and Conformity Assessment for all electrical, electronic and related technologies.
- IEC 60364 – Electrical Installations in Buildings.
- CSA – C22.2 No.180:13 (R2018), series isolating transformers for airport lighting.
- FAA Advisory: AC 150/5340-26 (current edition), Maintenance of Airport Visual Aid Facilities.
- Maintenance personnel must refer to the maintenance procedure described in the ICAO Airport Services Manual, Part 9.
- ANSI/NFPA 79, Electrical Standards for Metalworking Machine Tools.
- National and local electrical codes and standards.

1.1.2 Intended Use

CAUTION

Use this equipment as intended by the manufacturer.

This equipment is designed to perform a specific function. Do not use this equipment for other purposes.

Failure to follow this instruction can result in serious injury, death or equipment damage.

1.1.3 Material Handling Precautions: Storage

CAUTION

Improper Storage

Store this equipment properly

- If equipment is to be stored prior to installation, it must be protected from the weather elements and kept free of condensation and dust.

Failure to follow this instruction can result in equipment damage

2.0 RELIANCE EMIX-L

L-861(L), L-861E(L) & L861SE(L) LED Elevated Runway Edge Light, and MOS139 Medium and Low Intensity.

2.1 Runway Edge, Threshold and End, L-861(L), L-861E(L) and L-861SE(L)

Compliance with Standards

FAA:	L-861(L), L-861E(L) and L-861SE(L) AC 150/5345-46 (Current Edition) and the FAA EB No. 67. ETL Certified.
ICAO:	Annex 14, Vol. I (Current Edition)
T/C:	Transport Canada TP 312, para. 5.3.12.7 and Appendix 5B Table 5B-1
MOS:	Part 139, para. 9.10.6, 9.10.13, 9.10.19 and 9.10.22

Uses

FAA L-861(L)

- Runway edge
- Visual or non-precision IFR runways

FAA L-861E(L)

- Runway threshold/end
- Visual runways or non-precision IFR runways

FAA L-861SE(L)

- Runway threshold/end
- Non-precision IFR runways

ICAO and T/C

- ICAO non-precision approach; Runway edge, Threshold and End

MOS

- Low-intensity runway edge and threshold/end
- Medium-intensity runway edge and threshold/end
- Stopway

Features

- Average LED life of 56,000 hours under high-intensity conditions and more than 150,000 hours under typical operating conditions, resulting in significant reduction or even elimination of ongoing maintenance costs and periodic re-lamping expenses.
- Single-latch, stainless steel clamp allows easy removal and replacement of top cover and lens.

- A gasket is used between the lens and the top cover and also between the top and bottom fixture head assemblies to form a watertight seal.
- Light fixture with arctic option uses a thermostatically controlled heater to prevent ice and snow buildup from obscuring light output. Melts ice similar to traditional incandescent fixtures.
- Three screws allow a 4° leveling adjustment of the fixture after installation.
- Fixture comes standard with a 1.5-inch coupling, but is available with a 2-inch coupling and in alternative thread patterns.
- For additional features common to many of our elevated LED fixtures, see data sheet 3043.

Operating Conditions

Temperature:	-40°F to +131°F / -40°C to +55°C
Wind:	Withstands wind velocities up to 300 mph / 482 kph

Packaging

Assembled Fixtures	Dimensions of Cartons (H x W x D)		Indiv. Weight lb / kg
	Individual in / cm	15 per box in / cm	
14" OAH	20.5 × 6.5 × 6.5 /	19.5 × 23.5 × 15.75 /	5 lb /
	52 × 17 × 17	50 × 60 × 40	2.3 kg
24" OAH	31 × 6.5 × 6.5 /	29.5 × 23.5 × 15.7 /	6.25 lb /
	79 × 17 × 17	49.5 × 49.5 × 78.7	2.8 kg
30" OAH	6.5 × 6.5 × 37 /	19.5 × 19.5 × 37 /	7 lb /
	16.5 × 16.5 × 94	49.5 × 49.5 × 94	3.2 kg

Leveling Device Ordering Code

For accurate aiming and leveling, it is recommended to have one leveling device per airfield.

44A7645

Application

MI = Runway edge, medium intensity

Lens Type

S = Glass

Cable and Connector

2 = 1 plug (2-pin)⁹

6 = 1 plug (2-pin) and separate earth ground wire⁹

8 = 1 plug (2-pin), externally connected^{1,2}

Color - Side 1^{4, 5, 6}

W = White

Y = Yellow

R = Red

G = Green

N = None (Obscured)

Color - Side 2^{4, 5, 6}

W = White

Y = Yellow

R = Red

G = Green

N = None (Obscured)

Ordering Code Notes

¹ Not ETL Certified.

² Cord set connected externally to column, not available if digit 9 is R or W.

³ Normally used in metric applications.

⁴ Color combinations not recognized by FAA: white/green, white/obscured, and yellow/obscured.

⁵ FAA color combinations are: red, red/green, obscured/green white/red, white/yellow, white/white, yellow/red, yellow/green and yellow/yellow.

⁶ MOS color combinations are white/white, red/white, red/obscured, red/green and obscured/green.

⁷ Arctic kit Not available for MOS 139.

⁸ MOS certified applications only available with overall height / fixture coupling options R or W).

⁹ If Digit 9 is R or W, digit 5 must be 2 or 6.

Overall Fixture Height/Coupling

1 = 14 in (35.6 cm) with 1.5" coupling, 12 TPI

2 = 20 in (50.8 cm) with 1.5" coupling, 12 TPI

3 = 24 in (61.0 cm) with 1.5" coupling, 12 TPI

4 = 30 in (76.2 cm) with 1.5" coupling, 12 TPI

5 = 14 in (35.6 cm) with 2" coupling, 11.5 TPI

6 = 20 in (50.8 cm) with 2" coupling, 11.5 TPI

7 = 24 in (61.0 cm) with 2" coupling, 11.5 TPI

8 = 30 in (76.2 cm) with 2" coupling, 11.5 TPI

9 = 14 in (35.6 cm) with 2" coupling, 11 TP^{1,3}

A = 20 in (50.8 cm) with 2" coupling, 1 TP^{1,3}

B = 24 in (61.0 cm) with 2" coupling, 11 TP^{1,3}

C = 30 in (76.2 cm) with 2" coupling, 11 TP^{1,3}

D = 18 in (45.7 cm) with 1.5" coupling, 12 TPI

E = 18 in (45.7 cm) with 2" coupling, 11.5 TPI

H = 16 in (40.6 cm) with 1.5" coupling, 12 TPI

R = ICAO < 350mm OAH (2" coupling), 11.5 TPI^{1,3}

W = ICAO < 350mm OAH (2" coupling), 11 TPI^{1,3}

Power Supply

S = Current Driven, 50/60 Hz

Photometrics

0 = ICAO and FAA compliant

F = FAA compliant (L-861SE only)

C = Canada, TP 312-compliant¹

L = MOS 139 compliant (low intensity)^{1,8}

M = MOS 139 compliant (medium intensity)^{1,8}

Arctic Option

0 = Without arctic option

1 = With arctic option⁷

Power Supply

Medium-intensity runway fixtures should be operated on a 3-step series circuit. 6.6 A through an L-830 (for 60 Hz) or L-831 (for 50 Hz) isolation transformer. Light fixtures LED lights have been designed to work with any IEC- or FAA-compliant transformer up to 30/45 W without affecting performance or lifetime of the light or the transformer.

	Fixture Load	Isolation Transformer	Isol. XF Load	CCR Load
L-861(L)				
W/out heater	9.9 VA	10/15 W	11.6 VA	21.5VA
With heater	29.9 VA	30/45 W	9 VA	38.9 VA
L-861E(L) - Bidirectional				
W/out heater	5.7 VA	10/15 W	12.2 VA	17.9 VA
With heater	25.7 VA	30/45 W	9 VA	34.7 VA
L-861E(L) - Unidirectional				
W/out heater	4.8 VA	10/15 W	12.4 VA	17.2 VA
With heater	24.8 VA	30/45 W	9 VA	33.8 VA
L-861SE(L) - Bidirectional				
W/out heater	14.1 VA	10/15 W	12.1 VA	26.2 VA
With heater	34.1 VA	30/45 W	9 VA	43.1 VA
L-861SE(L) - Unidirectional				
W/out heater	10.6 VA	10/15 W	12.3 VA	22.8 VA

ADB SAFEGATE Americas Technical Service & Support (International): **+1-614-861-1304**. For technical service press 3 and for sales support press 4.

We can also be reached via email during regular business hours.

Airfield and Gate: **techservice.us@adbsafegate.com**

Gate: **gateservice.us@adbsafegate.com**

We look forward to working with you!

Before You Call

When you have an airfield lighting or control system problem, prior to calling, please ensure the following:

- Review the product's manual and troubleshooting guide.
- Be located with the product ready to troubleshoot.
- Have all necessary information available: airport code/company name, customer id number, contact phone number/email address, product/part number.
- Have all necessary tools that may be needed at hand.

When calling about an issue with Safedock A-VDGS, we can serve you better if you collect the following information before you call:

- Relevant information regarding the issue you are calling about, such as gate number, flight number, aircraft type and time of the event.
- What, if any, actions have been taken to resolve the issue prior to the call.
- If available, provide a CCTV recording of the incident to aid in aligning the information from the Safedock log file.

For more information, see www.adbsafegate.com, contact ADB SAFEGATE Support via email at **support@adbsafegate.com**.

A.1 ADB SAFEGATE Website

The ADB SAFEGATE website, www.adbsafegate.com, offers information regarding our airport solutions, products, company, news, links, downloads, references, contacts and more.

A.2 Recycling

A.2.1 Local Authority Recycling

The disposal of ADB SAFEGATE products is to be made at an applicable collection point for the recycling of electrical and electronic equipment. The correct disposal of equipment prevents any potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling. The recycling of materials helps to conserve natural resources. For more detailed information about recycling of products, contact your local authority city office.

A.2.2 ADB SAFEGATE Recycling

ADB SAFEGATE is fully committed to environmentally-conscious manufacturing with strict monitoring of our own processes as well as supplier components and sub-contractor operations. ADB SAFEGATE offers a recycling program for our products to all customers worldwide, whether or not the products were sold within the European Union (EU).

ADB SAFEGATE products and/or specific electrical and electronic component parts which are fully removed/separated from any customer equipment and returned will be accepted for our recycling program.

All items returned must be clearly labeled as follows:

- For Restriction of Hazardous Substances (RoHS)/Waste Electrical and Electronic Equipment (WEEE) Recycling
- Sender contact information (Name, Business Address, Phone number).
- Main Unit Serial Number.

ADB SAFEGATE will continue to monitor and update according for any future requirements for EU directives as and when EU member states implement new regulations and or amendments. It is our aim to maintain our compliance plan and assist our customers.
