

AXON

LED Approach Centerline, Crossbar and Siderow

Unidirectional Inset 12-inch

Compliance with Standards (current version)

ICAO	Annex 14 Volume 1
EASA	CS-ADR-DSN
IEC	61827
NATO	STANAG 3316
STAC	PRO/STAC/SE/ENIS/600S
Canada	TP 312
Australia	MOS 139
CE	

Uses

ICAO

- Approach centerline
- Approach crossbar
- Approach siderow

Features and Benefits

Efficiency

- EQ has an integrated ILCMS remote for use with the LINC 360 system providing high data capacity and resisting degradation from various types of radio effects to provide a superior communication platform
- Precision aimed optics enhancing photometric performance and complementing extended LED life
- Reduced bottom pan profile allowing for very shallow base can installation
- LEDs pulse width modulated (PWM) at 400 Hz optimizing LED performance and eliminating perceptible flicker to a moving human observer throughout the range of brightness steps
- Operates at all steps of constant current regulator technologies designed in compliance with IEC or FAA requirements
- Fully dimmable lights, conforming to the dimming curve of traditional halogen lights
- Low protrusion, high-intensity, Style 3 (≤ 6.35 mm) inset light fixtures
- No negative slope in front of the prisms

Sustainability

- Fully encapsulated all-in-one universal power supply.
- Latest generation LEDs providing a long-lasting light source with high efficiency and low power consumption
- Reinforced top cover substantially exceeding standards to improve durability and longevity
- One single family of fixtures covering all runway, taxiway and approach applications
- IP68 rated enclosure designed for harsh environments; all fastenings are stainless steel
- Reinforced prism available as an option
- Compatible with existing infrastructure allowing for direct replacement of existing LED inset fixtures

Safety

- Improved mechanical design to strengthen and consolidate components, improving the customer maintenance experience
- Fail-open option for compatibility with legacy monitoring systems and optimization of advanced control/ monitoring systems
- Failed-LED Detection as required by Engineering Brief 67D
- Robust lightning protection complying with ANSI/IEEE C62.41-1991; Location Category C2 as required by FAA Eng. Brief 67. Category C2 is defined as a $1.2/50\mu\text{S} - 8/20\mu\text{S}$ combination wave, with a peak voltage of 10,000 V and a peak current of 5,000 A

Power Supply

- Non-Monitored - Power only
- Monitored - Integrated fail-open technology
- EQ with integrated ILCMS with OFDM technology for use with LINC 360 system

Ordering Code

Application

AC= Approach Centerline / Crossbar
AS= Approach Siderow
SF = Approach Siderow Flash

Standards

3 = ICAO¹

Market Specific

0 = None
3 = U.S. Military
4 = German MIL 7-step FO

Dimensions

2 = 12 inch (304 mm) Diameter

Prism

S = Standard prism
R = Reinforced prism

Beam Orientation

1 = Unidirectional

Toe-in

N= None
L = Left
R = Right

Color – Side 1 (Left)

R = Red (AS)
W= White (AC)

Color – Side 2 (Right)

N= None

Power and Monitoring

S = 2.8 A - 6.6 A non-monitored - power only
M= 2.8 A - 6.6 A Fail-Open monitoring
R = 2.8 A - 6.6 A, ILCMS integrated OFDM EQ

Cable and connector

1 = 1 x Style 6 2-pole plug, 2 individual wires²
2 = 1 x Style 1 2-pole plug, jacketed SO 2 core cable²
5 = 1 x Flat 3-pole plug, 3 individual wires²

Options

0 = None
1 = Arctic Kit

Version Control

1 = Version 1

RS

Operating Conditions

Operating temperature

-60 °C to +55 °C / -76 °F to +131 °F

Storage temperature

-60 °C to +80 °C / -76 °F to +176 °F

Humidity

Up to 100%

Dimensions and Weight

Dimensions

304 mm (12 in)

Weight

6.8 kg / 15 lb (12 in)

Maintenance and Installation

The light fixture can be installed on a 12-inch base. Gaskets are sold separately. Check what gasket and bolts to order depending on base and installation.

Refer to the approach user manual for 12-inch lights and to the interoperability information for installation on a specific base.

Ordering Code Notes

¹ Option 3 covers standards: EASA,NATO,STAC,TP-312, MOS 139

² All Style 1 corded fixtures will include a ground lug. All Style 6 or 3-pole corded fixtures will be provided without a ground lug UNLESS digit 6 is option 1 "BAP".

ANNEX

12-inch light fixtures without Arctic Kit

Fixture type – 1 cord set	Fixture load	Isolation transformer		CCR load
		Wattage	Load	
Approach Centerline Light	60 VA	65 W	15 VA	75 VA
Approach Crossbar Light Light	60 VA	65 W	15 VA	75 VA
Approach Siderow Light	42 VA	45 W	12 VA	54 VA

Note:

- See approach user manual for other power supplies.
- EQ fixtures:
 - The isolation transformer must have an additional 8 VA available above the fixture load for communication bandwidth. Please Transformers can be safely overloaded by 10 %.
 - Legacy BRITE II or AGLAS 2 systems — Order "M" power supply
- For fail-open fixtures:
 - The maximum rating for the isolation transformer is 200 W
- Additional voltage loss when longer secondary cables are used is not included in above table; these additional losses may result in a larger size isolation transformer requirement and must be factored into the circuit load calculation
- Additional voltage loss in primary cable is not included in above table; this additional loss will result in a higher CCR load and must be factored into the circuit load calculation
- Efficiency of the isolation transformer depends on the manufacturer of the transformer
