

End of Support (EOS)

January 20, 2026

Dear Valued Customer,

This notice is to inform you that ADB Safegate has now discontinued service and spares support for the **FAA L-858 AGSF-H - Halogen Airfield Guidance Sign**.

In accordance with ADB Safegate product discontinuation policy, we are hereby giving notice of these changes so that our customers and trusted partners can adjust their product purchasing records.

ADB SAFEGATE continues to support the L-858 Halogen signs with LED upgrade kits. We hereby include in this notice the remaining spare parts availability and the successor products where applicable.

Discontinuation Planning	
Discontinued Product	FAA L-858 AGSF-H Halogen Airfield Guidance Signs Product Discontinuation Notice: AGSF-H
Reason(s) for Discontinuance	End-of-Life (EOL) stage, difficult to maintaining availability of spare parts, transition to new design FAA L-858(L) AGSF-L LED Airfield Guidance Signs.
End-of-Support Deadline	January 31, 2026
	Spare parts will no longer be available for warranty or non-warranty support, and technical support will be limited to fee-based repair work.
Replacement Product	FAA L-858(L) AGSF-L LED Airfield Guidance Signs AGSF-L - Airfield Guidance Sign, LED, L-858(L), FAA LED Retrofit Kits 94A0628/XX0 - Converts halogen sign to LED sign. AGSF-H Sign LED Retrofit Kit

FAA Opinion on Mixing of Light Source Technologies – Per AC 150/5340-30J paragraph 1.4

1.4 *Signs Per Location - Do not collocate LED signs with incandescent signs.*

Example: runway holding position signs on both sides of a taxiway, holding position signs on both sides of a runway, separate signs that form a sign array.

It should be noted that for most applications it is permissible to mix LED and incandescent signs on an airfield. It is only prohibited to mix incandescent and LED signs where signs are placed side-by-side or in relation to each other as described in AC 150/5340-30J paragraph 1.4 (above). For these installations, a cost-effective recommendation is to convert the incandescent signs to LED technology using LED Retrofit Kits 94A0628/XX0.
