### **Aluminium products from Normeka AS**

Indra Navia AS hereby confirms that Normeka AS has supplied masts and other products in aluminium for our Instrument Landing System (ILS) installations since 1980. Indra Navia sets high standards of quality and durability in the products we deliver, and requires that our suppliers are certified to ISO 9001 or equivalent quality standards.

Indra Navia can confirm that we have received no complaints regarding the quality of the aluminium products delivered by Normeka.

Our ILS projects and Normeka's products have been installed worldwide in most kinds of climates.

Normeka products have been a part of Indra Navia's more than 60 ILS installations in Spain, including airports in Menorca and Mallorca. As an example of the wide range of climatic conditions where we have supplied Normeka products, photos of our installations in Iceland and the Shetland Islands are enclosed.

Please do not hesitate to take contact should you require further information or documentation.

Yours faithfully,  
for Indra Navia AS

Hans Christian Guren  
Director Navigation
