WHAT IS ALUMINIZED PRE-OX ARAMID MATERIAL?

Aluminized, pre-oxidized aramid fabric provides excellent heat protection by combining the high-temperature resistance of aramid fibers with the reflective properties of aluminum. The pre-ox treatment significantly increases the heat and flame resistance.

THUMB STRAP for extra reinforcement in key stress area

WELTED FINGER SEAMS protect stitching from abrasion & sparks

WOOL LINER provides naturally flame-resistant thermal insulation & comfort

DURABLE KEVLAR® STITCHING offers spark and abrasion resistance
