able comfort and
a snug fit

**EXCLUSIVE PADDED
BUMPPATCH™**
offers extra side-hand comfort
and abrasion resistance

**PADDED VIBRATION-
DAMPENING PALM**
for improved comfort

Targeted Applications & Industries

Mechanics gloves are designed to protect hands and fingers from the elements and various tools, while allowing the grip, dexterity, and control needed for precision work. Commonly used in automotive and utility work.

Reinforced padded vibration-dampening palm

Seamless index finger provides extra dexterity and finger control where it's needed most.
