- Optimal combination of light weight, versatility, and flexibility, effectively meeting a wide range of demanding requirements.
- Tube made of a special food-grade polymer, resistant to the most commonly used chemical cleaning agents, even at high concentrations or temperatures.
- Can also be steam-cleaned up to +110°C for 30 minutes.
- Abrasion resistant and non marking cover.
- Contains no phthalate.

COUPLING/FITTINGS

Trelleborg's UTS coupling system has been designed to fit all connections used on your food processing equipment.

We have developed specific coupling solutions to prevent contamination and preserve product quality. Please contact us for further information.
