

SCOPE OF PROTECTION

Protects your hands using fire place, barbecue, oven and camp fire. Flame proof – This glove is made of a flame retardant material. Heat proof – This glove is made of industrial grade quality material and it protect you from intense heat exposure up to 100 °C (212 °F). Let the glove cool down in between use. Open fire and heat are always dangerous. Always take all possible precautions. The glove does not protect against sharp objects.

SAFETY INFORMATION

WARNING! These gloves can become hot when in contact with heated surfaces. Use with caution to prevent burns. Keep gloves away from open flames and direct heat sources. Do not use when wet, as this may accelerate heat transfer and lead to burns. These gloves offer limited heat protection and are not suitable for extended contact with hot items or for removing items directly from a hot oven. Follow care instructions to maintain protective properties. Do not wash these gloves, as washing can reduce their level of protection.

CARE & MAINTENANCE

Before using always examine gloves for tears and holes. Replace damaged gloves. Only satisfactorily fitting gloves guarantee protection and a firm hold. Depending on the degree of dirt, beat out, brush down. Don't wash this glove. Store in a dry, well-ventilated place at normal room temperature. Avoid sunlight and exposure to direct heat. Useful life depends on the degree of wear and the intensity of use for each application. No time can therefore be specified.

EC DECLARATION OF CONFORMITY

1. Product model(s): Barbecue glove

2. Name and address of the manufacturer or his authorised representative:

Esschert Design B.V.
Euregioweg 225
7532 SM Enschede
+31 (0)53 484 7333
service@esschertdesign.nl

3. This declaration of conformity is issued under the sole responsibility of the manufacturer.

4. Object of the declaration: FF264
