PAL57F, PALLET COILNAILER, DOUBLE HANDED SAFETY

PAL57F-2H

The Pal57F coilnailer is designed to drive up to a 57mm nail. Built for high speed operations and designed to handle the toughest production applications. For boxes, crates, carton-to-skid and pallets applications. The double safety requires two hands to fire a nail. First press the handle on the front side of the machine with one hand and pull the trigger with the other hand. This will prevent user from firing the tool using only one hand. This will lead to additional safety in the working environment.
