Suction cup F-BXT35 Silicone 5x1/8" NPSF female, with dual flow control valve

Article number: 0210674

- The silicone material complies with FDA 21 CFR 177.2600 and EU 1935/2004.
- Long lasting high-end silicone material.
- A low percentage metal additive (Fe) is mixed with the rubber material to make it detectable.
- The multi-bellow cup has an extra-long and extra thin lip. As a result, it will pick/lift better on the surfaces that are textured or seeded, such as seeded hard bread & lasagna plates.
- F-BXT 35 is available with Piab's fittings range used for standard/regular suction cups.
- Low vacuum level needed to collapse bellows.
 Reduces risk for damaging the handled food product.
