## Value Line® T-design vacuum generator 1/4"

Article number: 0202191

- Ejector with improved vacuum performance compared to corresponding size conventional single-stage ejector.
- Ejector stage without flap valve gives high reliability in dirty and dusty environments.
- Light weight body.
- Integrated push-in fittings or thread connection for quick and low cost installation.
- Available in "Inline", "T-design" or aluminum block version.
- The T-design is suitable if exhaust air needs to be piped away.
- The VL206 1/8" block version is an easy-to-install alternative, targeting operators of basic automated vacuum systems.
