

Height adjuster HA25

Article number: 0121122

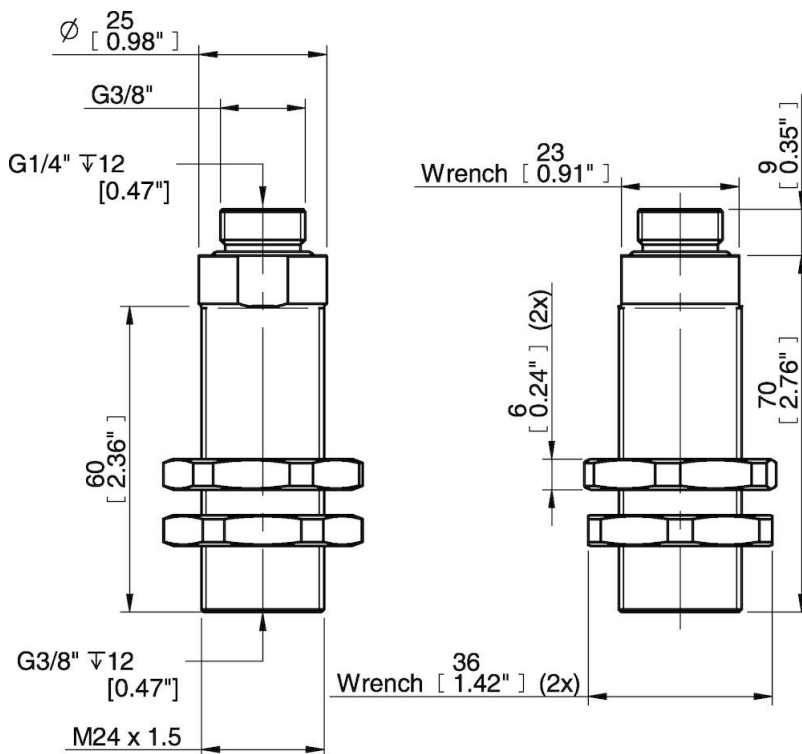

- Facilitates the positioning (y-direction) of a suction cup.
- Provides an adjustable height extension between a mounting bracket (MB) and a suction cup.
- Can be used with a suction cup / rod extension to further elongate the cup position.
- Key handle to avoid rotation when connecting vacuum ports.

Technical data

Description	Unit	Value
Material	-	Al, Nitrile (NBR), Steel
Load, horizontal, max.	N	223
Load, vertical, max.	N	319
Temperature, max.	°C	70
Temperature, min.	°C	-30
Weight, min.	g	130
Volume	cm ³	32
Action range/Stroke	mm	48
