

P9

Mechanical ware washing detergent for all water hardnesses, safe on aluminium

Description

Suma Revoflow Safe P9 is a mechanical ware washing detergent specially formulated to provide excellent soil removal and to prevent the build-up of lime scale over time.

Key properties

Suma Revoflow Safe P9 contains a blend of alkali and builders for an effective removal of grease and fats. The formulation also contains active chlorine for effective removal of tannin stains. Suma Revoflow Safe P9 is effectively dosed with the Diversey Revoflow system, which combines excellent performance, safety and convenience.

Benefits

- Free-flowing granulated powder gives superb results
- Effective stain removal by the presence of active chlorine
- Safe for washing aluminium
- Highly concentrated formulation gives economy in use
- Ease of handling during loading by convenient small pack
- No contact with chemicals due to innovative packaging design

Dosage*

Use Suma Revoflow Safe P9 only with the Diversey Revoflow dosing system at a minimum recommended dosing of 0,5g/l* in medium hard to hard water conditions.

At 1g/l, this will prevent scale deposits in water containing up to 160ppm CaCO_3 , 9°dH, 16°FH.

Actual dosage levels are determined according to local site conditions.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*
