Satisfied Customers

Description

Twister High Traffic is an innovative method for daily floor maintenance that cleans and polishes unprotected floors by using floor pads prepared with billions of microscopic diamonds. The High Traffic Program is specially developed for large areas like airports, shopping malls, supermarkets etc. and areas with many visitors per day. The diamond impregnated side of the pad is colored and also works as a wear indicator.

Twister HT significantly reduces the need for periodic floor maintenance, whilst also lowering the overall cost. These long lasting pads, used in sequence, transform a floor to a clean, shiny and polished surface. The Twister HT Blue pad is effective for daily cleaning. The blue HT pad has a lifespan of up to 45,000m² under optimal circumstances.

For full information please consult the product selector guide.

Instructions for use

- Select the appropriate Twister pad
- Mount side labelled "Machine Side" facing the machine and the colored side facing the floor
- Use only water together with Twister
- Clean and polish
- After use, rinse the Twister pad
- If the color is gone, change the pad

Please note: The diamond impregnated side of the pad is colored and works as a wear indicator.
