

Mechanical ware washing detergent for soft water

Description

Suma Revoflow Max P1 is a high performance machine ware washing chlorine containing powder detergent specially formulated to provide excellent soil removal in soft water conditions.

Key properties

Suma Revoflow Max P1 is a heavy duty alkaline powder detergent which is suitable for use in all types of automatically dosed commercial ware washing machines. It contains caustic alkali for effective removal of grease and fats and a blend of sequestrants to boost cleaning performance and to prevent scaling in soft water conditions. It also contains active chlorine for the effective removal of stains. Suma Revoflow Max P1 is effectively dosed with the Diversey Revoflow system, which combines excellent performance, safety and convenience.

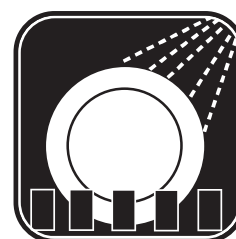

Benefits

- Highly concentrated formulation gives economy in use
- Free-flowing granulated powder gives superb results
- Excellent starch removal by high alkaline ingredients
- Effective stain removal by the presence of active chlorine
- Ease of handling during loading by convenient small pack
- No contact with chemicals due to innovative packaging design

Use instructions

Only use Suma Revoflow Max P1 with the Diversey Revoflow dosing system at a minimum recommended dosing of 0.2g/l* in soft water conditions. At 1g/l, this will prevent scale deposits in water containing up to 90ppm CaCO₃, 5.06°dH, 9°FH.

Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures).
