Unison Maxi

G3

Mechanical ware washing detergent for medium to hard water

Description

Suma Unison Maxi G3 is a high performance machine ware washing detergent specially formulated to provide excellent soil removal in medium hard to hard water conditions.

Key properties

Suma Maxi G3 is a heavy duty alkaline powder detergent which is suitable for use in all types of automatically dosed commercial ware washing machines. It contains caustic alkali for effective removal of grease and fats. The formulation also contains a blend of sequestrant, for prevention of scale in medium hard to hard water, and active chlorine for effective removal of stains. Suma Unison Maxi G3 is effectively dosed with the Diversey Unison system, which combines excellent performance, safety and convenience.

Benefits

- Free-flowing powder gives superb results
- Excellent starch removal by high alkaline ingredients
- Effective stain removal by the presence of active chlorine
- Highly concentrated formulation gives economy in use
- Ease of handling during loading by convenient small pack
- No contact with chemicals due to innovative packaging design

Use instructions

Use Suma Unison Maxi G3 only with the Diversey Unison dosing system at a minimum recommended dosing of 0,2g/l* in medium hard to hard water conditions.

At 1g/l, this will prevent scale deposits in water containing up to 150ppm CaCO₃, 9°dH, 15°FH.

Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures).

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*
