

TASKI® Sani 4 in 1

Washroom cleaner, descaler, disinfectant and deodoriser in QuattroSelect®

Description

Washroom cleaner, descaler, disinfectant and deodoriser for all acid resistant hard surfaces in washroom areas.

Key properties

- Acid based formulation
- Cleans, descales, disinfects and deodorises in one step
- Effective against a wide spectrum of micro-organisms including E coli and Salmonella
- Unique, patented Odour Neutralizing Technology (O.N.T.)

Benefits

- Excellent cleaner, works in a large spectrum of water hardness
- Reduces the number of products in the washroom area
- Excellent hygiene, reducing the risk of cross contamination
- Leaves a pleasant, fresh fragrance

Use instructions

The product can only be used through the Quattro Select dilution unit, which guarantees 100% cost control and safety. The Quattro Select unit dispenses high flow (bucket application) and low flow (spray application) dosages.

Dosage:

Point the yellow Quattro Select unit selector valve to the quadrant which corresponds to the right product and application.

Spray application: Fill the spray bottle from the low flow eductor. Attach the trigger and shake bottle gently. Recommended concentration 2.5%.

Bucket application: Fill the bucket using the high flow eductor through the filling gun. Minimum concentration 1%. Increase concentration up to 2.5%.

Please refer to the Quattro Select unit installation manual for selecting the right dilution tip. Proper dosage saves costs and minimizes environmental impact.

Application:

1. **Spray method:** Spray the solution on a damp cloth and wipe. Let it work for the required time according to the microbiological data. Use a sponge pad to remove stubborn soil. Rinse or replace the cloth regularly.
2. **Bucket method:** Apply the solution with a cloth/sponge or mop and wipe. Let it work for the required time according to the microbiological data. Use a sponge pad to remove stubborn soil.
