LAPÉ Collection

Care for your guests' skin

Both LAPÉ hand washes and hand & body lotions care for your skin through their specially created formulation blends. LAPÉ's hand washes contain a highly effective moisturizing complex to ensure hands remain hydrated during washing. LAPÉ's lotions soothe and condition skin leaving hands feeling sumptuously soft and smooth. Only a small quantity is required to cover hands and it rubs quickly and easily in to skin.

The LAPÉ Collection is phthalate, paraben and triclosan free.

Environmentally sustainable; refill and recycle

LAPÉ Collection bottles can be recycled at the end of their use via normal plastic recycling routes, but you can improve your sustainability story even further through the use of the LAPÉ hand wash and hand & body lotion refill system. LAPÉ hand wash and hand & body lotions can be purchased in cases of 2x5L containers along with squeezable bottles for decanting. The squeezable bottles have wide necks to make them easy to fill from the 5L container. Their tops have long, pointed nozzles so all you need do is unscrew the pump from the top of the LAPÉ bottle and slide the squeezable bottle in.

LAPÉ bottles can be left in situ in their wall brackets during refilling as the squeezable bottles are light enough to lift and hold across wide washing areas. By unscrewing the LAPÉ pumps but leaving them in place the LAPÉ Collection offers a quick and completely drip-free refill solution.

Refills not only enhance environmental profiles and reduce your costs through bulk purchase; they are yet another way to make your guests feel treasured. By keeping your washroom supplies topped up and looking full, you ensure your washroom always looks inviting and ready for guests. It is a quick and easy way of demonstrating once again that your guests remain always at the forefront of your mind.
