

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

**Product identifier.** 8MA/284  
**Product name.** WOODEN FLOORING LACQUER  
**UFI** No Information

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use.** Industrial Wood Coating  
**Uses advised against.** Professional Use Only

### 1.3. Details of the supplier of the safety data sheet

**Supplier.** Morrells Woodfinishes Ltd  
Wellington Works  
Mill Lane, Woodley  
Stockport  
SK6 1RN  
Tel: +44 (0)161 406 5300  
Fax: +44 (0)161 406 6276

E-Mail: enquires@morrells.co.uk

### 1.4. Emergency telephone number

Chemtrec: +1-800-424-9300 USA  
Chemtrec: +1 703-527-3887 ex-USA  
24 hrs./day, 7 days/week

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

Acute Toxicity, Inhalation, category 3  
Allergic effects

### 2.2. Label elements

**Signal Word**  
Danger

**Hazardous ingredients which must be listed on the label**

Not Applicable

**Possible Hazards**

6.5% of the mixture consists of ingredient(s) of unknown toxicity

2.1% of the mixture consists of ingredient(s) of unknown acute dermal toxicity

6.5% of the mixture consists of ingredient(s) of unknown acute inhalation toxicity

**GHS HAZARD STATEMENTS**

H331 Toxic if inhaled.

EUH208 Contains 1,2-Benzisothiazol-3(2H)-one. May produce an allergic reaction.

**GHS SDS PRECAUTIONARY STATEMENTS**

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P271 Use only outdoors or in a well-ventilated area.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P311 Call a POISON CENTER or doctor/physician.

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

P405 Store locked up.

P501 Dispose of contents/container in accordance with national regulations.

**2.3. Other hazards**

EMERGENCY OVERVIEW: No Information

**SECTION 3: Composition/information on ingredients****3.1. Substances**

This product is a mixture. Health hazard information is based on its components.

**3.2. Mixtures**

| Chemical Name                       | CAS-No.    | EC No.    | Wt. %    |
|-------------------------------------|------------|-----------|----------|
| Dipropylene glycol monomethyl ether | 34590-94-8 | 252-104-2 | >=3 - <7 |

For the full text of the H-Statements mentioned in this Section, see Section 16

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### General advice.

Show this safety data sheet to the doctor in attendance. When symptoms persist or in all cases of doubt seek medical advice. Use personal protective equipment. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid contact with skin. See section 8 for more information.

#### Inhalation.

Remove from exposure, lie down. Keep victim warm and quiet. If unconscious place in recovery position and seek medical advice. Artificial respiration and/or oxygen may be necessary. Administer oxygen if breathing is difficult. If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Call a doctor immediately if allergic signs, particularly in the respiratory tract, are observed.

#### Skin contact.

Allergic symptoms may develop within 12 hours after exposure. In the case of skin irritation or allergic reactions see a physician. Wash off immediately with soap and plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash contaminated clothing before reuse. Thoroughly clean shoes before reuse.

#### Eye contact.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. May produce an allergic reaction. Do not rub affected area. Call a physician if irritation develops or persists.

#### Ingestion.

Rinse mouth. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Do not induce vomiting without medical advice. Allergic symptoms may develop within 12 hours after exposure.

### 4.2. Most important symptoms and effects, both acute and delayed

#### Symptoms.

May cause allergy or asthma symptoms or breathing difficulties if inhaled. Hives. Itching. Rashes. May cause allergic skin reaction.

### 4.3. Indication of any immediate medical attention and special treatment needed

#### Notes to physician.

Treat symptomatically. May cause sensitization of susceptible persons. Effects of contact or inhalation may be delayed.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

#### Suitable extinguishing media.

No Information

#### Extinguishing media which shall not be used for safety reasons.

None

### 5.2. Special hazards arising from the substance or mixture

Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high concentration.

### 5.3. Advice for firefighters

In the event of fire, wear self-contained breathing apparatus. Refer to protective measures listed in sections 7 and 8.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

#### Personal precautions.

Evacuate personnel to safe areas. Use personal protective equipment. Ensure adequate ventilation, especially in confined areas. Remove all sources of ignition. Keep people away from and upwind of spill/leak. Avoid contact with skin, eyes and inhalation of vapors. Wash thoroughly after handling. Wear appropriate respiratory protection and protective clothing as described in Section VIII.

#### Advice for emergency responders.

Refer to protective measures listed in sections 7 and 8.

### 6.2. Environmental precautions

Do not allow material to contaminate ground water system. See Section 12 for additional Ecological information.  
Try to prevent the material from entering drains or water courses. Prevent further leakage or spillage if safe to do so.

### 6.3. Methods and material for containment and cleaning up

#### Methods for Containment.

Soak up with inert absorbent material. Place into closed container and store in a safe location to await disposal. Wash the spill area with soap and water. Change contaminated clothing and laundry before re-use. Wear proper personal protective clothing and equipment.

#### Methods for cleaning up.

No Information

#### Other information.

Use personal protective equipment as required.

### 6.4. Reference to other sections

See Section 8, 13 for additional information.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

#### Advice on safe handling.

Remove and wash contaminated clothing before re-use. In case of insufficient ventilation, wear suitable respiratory equipment. Ensure adequate ventilation. Use only in area provided with appropriate exhaust ventilation. Persons with a history of skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit. Keep container closed when not in use.

#### Hygiene measures.

Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing.

### 7.2. Conditions for safe storage, including any incompatibilities

#### Storage Conditions.

Keep in properly labeled containers. Keep out of the reach of children. Store between 41 and 77 °F (5 - 25° C) in a dry, well ventilated place away from sources of heat, ignition and direct sunlight.

### 7.3. Specific end use(s)

#### Specific use(s).

No Information

#### Exposure scenario.

No Information Available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Exposure Limit Values

**EU - REACH (1906/2006) Article 59(1) - Candidate Substances of Very High Concern (SVHC)**

None

**8.2. Exposure controls****Engineering Measures.**

Ensure adequate ventilation, especially in confined areas. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction.

**Personal protective equipment.****Eye/Face Protection.**

No special protective equipment required.

**Skin and body protection.**

Protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. Follow the skin protection plan. Wear suitable protective clothing.

The selected protective gloves have to satisfy the specifications of EU Regulation (EU) 2016/425 and the standard EN 374 derived from it.

**Respiratory protection.**

In case of inadequate ventilation wear respiratory protection. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Breathing apparatus with filter. Respirator with a vapor filter (EN 141).

**Environmental Exposure Controls.**

No Information

**SECTION 9: Physical and chemical properties****9.1. Information on basic physical and chemical properties**

**9.2. Other information**

Volatile organic compounds (VOC) content. 107.445330524

**9.2.1. Information with regard to physical hazard classes**

No Information

**9.2.2. Other safety characteristics**

Evaporation rate No Information Available

**SECTION 10: Stability and reactivity****10.1. Reactivity**

Stable under normal conditions.

**10.2. Chemical stability**

To avoid thermal decomposition, do not overheat.

**10.3. Possibility of hazardous reactions**

None known based on information supplied.

**10.4. Conditions to avoid**

None known.

**10.5. Incompatible materials**

Strong oxidizing agents.

**10.6. Hazardous decomposition products**Carbon dioxide (CO<sub>2</sub>), carbon monoxide (CO), oxides of nitrogen (NO<sub>x</sub>), dense black smoke.**SECTION 11: Toxicological information****11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008****Acute toxicity.**

Toxic if inhaled.

**Product Information**

The product itself has not been tested

Data on individual components are tabulated below

The following values are calculated based on chapter 3.1 of the GHS document.

ATEmix (oral) &gt;5000 mg/kg

ATEmix (dermal) N.R.

ATEmix (inhalation-vapor) 9.39 mg/l

| CAS-No.    | Chemical Name                       | Oral LD50      | Dermal LD50       | Inhalation LC50 |
|------------|-------------------------------------|----------------|-------------------|-----------------|
| 34590-94-8 | Dipropylene glycol monomethyl ether | 5350 mg/kg Rat | 9500 mg/kg Rabbit | N.R.            |
| 5131-66-8  | GLYCOL ETHER PNB                    | 1900 mg/kg Rat | >2000 mg/kg Rat   | N.R.            |
| 121-44-8   | Triethylamine                       | 730 mg/kg Rat  | 415 mg/kg Rabbit  | 14.5 mg/L Rat   |
| 2634-33-5  | 1,2-Benzisothiazol-3(2H)-one        | 4              | N.R.              | N.R.            |
| 112-34-5   | 2-(2-BUTOXYETHOXY)ETHANOL           | 5660 mg/kg Rat | 2700 mg/kg Rabbit | N.R.            |

**Skin corrosion/irritation.**

May cause allergic skin reaction. SKIN IRRITANT.

**Respiratory or skin sensitization.**

Harmful by inhalation. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

**11.2. Information on other hazards****Endocrine disrupting properties**

N.A.

**Other information.**

N.A.

## SECTION 12: Ecological information

### 12.1. Toxicity

6.20% of the mixture consists of components(s) of unknown hazards to the aquatic environment

#### Ecotoxicity effects.

| Chemical Name                                     | Toxicity to algae                           | Toxicity to fish                          | Toxicity to daphnia.              |
|---------------------------------------------------|---------------------------------------------|-------------------------------------------|-----------------------------------|
| Dipropylene glycol monomethyl ether<br>34590-94-8 | N.D.                                        | LC50 96 h Pimephales promelas >10000 mg/L | LC50 48 h Daphnia magna 1919 mg/L |

### 12.2. Persistence and degradability

No data are available on the product itself

### 12.3. Bioaccumulative potential

No Information

| CAS-No.    | Chemical Name                       | Bio. Conc. Factor (BCF) | Octanol-water par. Coeff (KOW) |
|------------|-------------------------------------|-------------------------|--------------------------------|
| 34590-94-8 | Dipropylene glycol monomethyl ether | N.I.                    | 0.35                           |
| 5131-66-8  | GLYCOL ETHER PNB                    | N.I.                    | 1.2                            |
| 121-44-8   | Triethylamine                       | N.I.                    | 1.45                           |
| 2634-33-5  | 1,2-Benzisothiazol-3(2H)-one        | N.I.                    | 0.99                           |
| 112-34-5   | 2-(2-BUTOXYETHOXY)ETHANOL           | N.I.                    | 1                              |

### 12.4. Mobility in soil

#### Mobility in soil.

No information available

### 12.5. Results of PBT and vPvB assessment

No data are available on the product itself

### 12.6. Endocrine disrupting properties

No information available

### 12.7. Other adverse effects

No information available

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

#### Waste from residues / unused products.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Dispose of contents/container to an approved waste disposal plant.

#### Contaminated packaging.

Do not re-use empty containers.

#### Other information.

According to the European Waste Catalogue, Waste Codes are not product specific, but application specific.

## SECTION 14: Transport information

### ADR

|                                  |                |
|----------------------------------|----------------|

## 15.2. Chemical safety assessment

No.

## SECTION 16: Other information

**Revision Date** 9/30/2024

**Indication of changes:** Commission Regulation (EU) 2020/878: amending Annex II by introducing specific requirements regarding nanoforms of substances, adapting to the 6th and 7th revision of the GHS, and adding requirements regarding the Unique Formula Identifier (as set by Annex VIII to Regulation (EC) 1272/2008), endocrine disrupting properties, specific concentration limits, M-factors and acute toxicity estimates.

### Legend.

|      |                           |
