Certificate of the German Clean Act VDI 2440 Leakage Rate

Attestation No. IS-AN5-MUC-1903-100251585-002

Swissfluid AG
Industriestr. 40
5600 Lenzburg

Hereby it is certified that the Diaphragm Valve of the above mentioned company was examined and recognized according to the VDI 2440. Details are to be taken from the associated investigation report.

The product meets the following requirements:

- TA-Luft (detection of the leakage) according to VDI 2440, edition from November 2000
- Operating conditions: ambient temperature / 1 bar

In addition, the certificate contains the suitability verification of a stem seal and an internal flange connection in accordance with VDI 2440 as regards tightness and the observation of the specific leakage rate according to the German Clean Air Act [$\lambda \leq 10^{-4}$ mbar x l(s x m)] and an extended test under the above mentioned operating conditions.

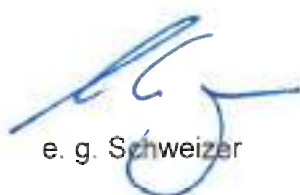

Product description:

Diaphragm Valves SDV Series DN 15 - DN 150 PN 16, DN 200 PN 10, PFA lined

This certificate is valid until March 2022.
